

ABSTRACT OF THE PHYSICO-CHEMICAL LITERATURE IN JAPAN

AUTHOR INDEX

VOL. XII 1938

The numbers refer to those of the abstracts.

- Abe, H. See Ishikawa, F.
 Akiyama, H. See Tamamushi, B.
 Aoki, H. On the number of quanta of gamma-rays emitted from a nucleus when it captures a neutron. 49.
 Aoyama, M. See Watanabe, Y.
 Aoyama, S. and Kanda, E. Studies on fluorine at low temperatures. I. Preparation, analysis and handling of fluorine. II. Vapour pressure of fluorine. III. Solution of chlorine in liquid fluorine. 69.
 — and Kanda, E. IX. Experiment on the reaction between solid fluorine and liquid hydrogen. 69.
 — and Fukuroi, T. The action of various elements and compounds on photographic plates. II 138.
 Arii, K. On the sorption of heavy-water vapour by active charcoal. 77.
 — and Kawabata, M. Vapour pressure of the corrosive substances. Part IV. 196.
 Ariyama, K. Note on a theory of the expanded film. 84.
 Doi, K. See Uzumasa, Y.
 Fujioka, Y. and Tanaka, Y. Molecular spectra of zinc hydride and deuteride 45.
 Fujita, Y. Dissociation of molecules in the carbon stars. 116.
 Fukami, Y. See Miyake, S.
 Fukuroi, T. See Aoyama, S.
 Futagami, T. On the thermo-luminescence of quartz exposed to X-rays. 164.
 Fukuyama, T. See Katta, T.
 Goto, R. On the positive ion emission from heated nickel wire in oxygen and hydrogen. 58.
 Goto, K. See Titani, T.
 — See Morita, T.
 Hadome, K. Studies on the ignition of explosive gas by heated wire. 96.
 Hagiwara, H. Studies of hydrosulphite. VI. Reduction by zinc amalgam of solution of sodium bisulphite. 8.
 — See Maruyama, K.
 — See Murooka, K.
 Harashima, A. On the kinetic theory of monatomic liquid. 95.
 Hasunuma, H. On the molecular spectrum of hydrogen emitted by an arc discharge. 113.
 — See Kiuti, M.
 Higashi, K. Dipole moment and solvent. II. Electric moments of some amines. III. Electric moment of di-isopropyl ketone. 25.
 — and Kubo, M. The dielectric constant of cetyl alcohol near its melting point. 81.
 — Dipole moments of benzil and stilbene dichloride. 149.
 Hirasawa, N. See Uemura, T.
 Hirata, F. and Wada, E. On the viscosity anomaly and the elasticity of concentrated aqueous solutions of sodium oleate. 87.
 — Studies on the physico-chemical properties and the constitution of thermoreversible gel. I, II and III. 129.
 Hiruma, K. See Komagata, S.
 Hishiyama, K. and Sekido, M. A new theory of wetting-out action. 130.
 Iijima, S. On the adsorption of hydrogen on reduced nickel. 91.
 — On the adsorption of hydrogen on reduced nickel. 181.
 — On the adsorption of deuterium on reduced nickel. 184.
 Iijima, T. See Okamoto, G.
 Imori, S. and Yoshimura, J. The cathode-luminescence spectra of feldspars and other alkali aluminosilicate minerals. 53.
 — See Iwase, E.
 Imahori, K. See Sidei, T.
 Imai, T. Some investigation on the photochemical methods for the measurement of ultraviolet radiation. 3.
 Imanishi, N. Application of interference spectroscopy to a study of the fine structure of a molecular spectrum. 115.
 Inoue, S. On the protecting colloids "Protalbinic" and "Lysalbinic" acids. 85.

- Irie, H. See Takeda, T.
- Ishikawa, F. and Watanabe, N. Studies of hydro-sulphite. VII. Reduction of bisulphite solution by sodium amalgam. 2.
- The free energies of solution of zinc chloride and halides of cadmium. 12.
- and Tanabe, C. A study of symmetrical diethyl sulphite. 13.
- and Moriwaki, K. The integral free energies of solution of sodium chloride and potassium bromide. 14.
- and Moriwaki, K. On the solubility and the dissociation of lead chloride in solutions of potassium nitrate. 67.
- and Yamaguchi, T. A study of carbon tetrachloride ethyl alcohol system. 99.
- and Abe, H. Studies of selenious acid. 179.
- Ishihara, K. The partial pressure-rate of the dry air. 16.
- Iwase, E. and Iimori, S. The cathodo-luminescence of luminescent calcium silicate. 109.
- , Iwase, K., and Nishioka, U. The equilibrium diagrams of the three binary systems (1) $\text{CaO} \cdot \text{SiO}_2 \cdot \text{TiO}_2 \cdot \text{MgO} \cdot \text{TiO}_2$, (2) $\text{CaO} \cdot \text{MgO} \cdot 2\text{SiO}_2 \cdot \text{MnO} \cdot \text{TiO}_2$ and (3) $\text{CaO} \cdot \text{SiO}_2 \cdot 2\text{CaO} \cdot \text{Fe}_2\text{O}_3$. 172.
- Iwatsuki, T., Mimura, Y., and Morinaga, K. Electromagnetism in wave-geometry. 21.
- See Mimura, Y.
- Kagehira, I. Studies on lubricating oils. III. Viscosities of hydroaromatic hydro-carbons. 135.
- Kakinuma, U. An attempt to account for the Coulomb force between electron and proton. 40.
- The spin angular momentum of the electron. 117.
- Kameyama, N., and Kikuchi, S. The light absorption of silver halides and their photographic sensitivity. 56.
- Kamiyama, M. See Takamine, T.
- See Suga, T.
- Kanda, E. IV. Separation of fluorine from oxygen by adsorption and rectification.
- V. Viscosity of fluorine gas at low temperatures.
- VI. Surface tension of liquid fluorine.
- VII. Dielectric constant of some condensed gases.
- VIII. Determination of molecular heat, heat of fusion of condensed fluorine and the entropy of fluorine. 69.
- The adsorption of helium on charcoal below 78°K ., and production and thermometry of low temperatures. 126.
- See Aoyama, S.
- Kaneko, S. Diffusion of strong electrolytes and individual activity coefficients of ions. 65.
- Equivalent conductivity and transport. Number of 1-1 salts. 68.
- On Bjerrum's theory of strong electrolytes. 122.
- The charge of an electron and the equivalent conductivity of strong electrolytes. 123.
- The foundation of the theory of strong electrolytes. 124.
- The individual activity coefficient of ions and the velocity of reactions. 125.
- Electric conductivity of glasses and fused salts. 155.
- On the additive properties of the strong electrolyte solution. 167.
- Kashimoto, S. and Kobayashi, M. The third absorption bands of co-ordination compounds. IV. $[\text{Co}(\text{g}^2\text{pyCl})] \cdot [\text{Co}(\text{NH}_3)_5(\text{NO}_2)_2\text{ox}] \cdot \text{NH}_4 \cdot \text{H}_2\text{O}$ and $[\text{Co} \text{ ox}_3] \cdot \text{K}_3 \cdot 3.5 \text{H}_2\text{O}$. 46.
- Kato, S. and Someno, F. Absorption spectrum and molecular structure. I. Aromatic amines. 114.
- Katta, T. and Fukuyama, T. A study of active carbon. III. Adsorbing power of active carbon in gaseous phase. 89.
- Kawabata, M. See Arai, K.
- Kawada, T. See Kikuchi, M.
- Kikuchi, Shinichi. See Kameyama, N.
- Kin, E. and Ri, K. Specific gravities of aqueous solution of inorganic neutral salts and fatty acid salts. 143.
- Kiuti, M., and Hasunuma, H. An attempt to interpret the observed stark effect in hydrogen molecule. 41.
- , Hasunuma, H., and Kawada, T. Isotope displacement in tungsten lines. 61.
- , and Hasunuma, H. A Note on the stark-effect of secondary spectrum of hydrogen. 159.
