

ERRATUM: THE DECOMPOSITION OF AMMONIA BY IRON CATALYST MIXED WITH Al_2O_3 AND K_2O .

By RYÔ KIYAMA.

(*This Journal*, 13, 125 (1939))

The interpretation of the relations (a) and (b) given on p. 133 is to be corrected as follows: so far as the adsorbed amount of ammonia does not become smaller, the activity becomes higher when the adsorbed amount of hydrogen becomes smaller.
