

BIBLIOGRAPHY OF PROFESSOR SHINKICHI HORIBA

I. CONTRIBUTIONS TO JOURNAL

1. On the Equilibrium in the System: Water, Ethylalcohol and Ethylether
Mem. coll. Sci. and Eng., Kyoto Imp. Univ., **3**, 63 (1911)
2. Determination of Very Weak Acids and Base by means of Electrolytic Conductivity Measurements
Mem. coll. Sci., Kyoto Imp. Univ., **1**, 35 (1914-1915)
3. On the Equilibrium in the System: Water, Phenol and Benzene
Ibid., **1**, 49 (1914-1915)
4. On the Equilibrium of a System of Three Components where Two Liquids Phases co-exist
Ibid., **1**, 269 (1914-1915)
5. On Chemical Resistance
Ibid., **1**, 277 (1914-1915)
6. Studies of Solution, I: The Change of Molecular Solution Volumes in Solution
Ibid., **2**, 1 (1916-1917)
7. Studies of Solution, II: A Conception of Osmotic Pressure
Ibid., **2**, 45 (1916-1917)
8. Relation between the Solubilities of Solutes and their Molecular Volumes
Trans. Farad. Soc., **15**, 178 (1920)
9. Determination of Vapour Pressure of Metallic Arsenic
Z. Physik. Chem., **105**, 295 (1923)
10. Photochemical Union of Chlorine and Hydrogen, I (with T. Ichikawa) (Japanese)
Rev. phys. chem., Japan, **1**, 145 (1925-1927)
11. The Weigert Effect as a More General Nature of Certain Colloidal Systems, I (with T. Kondo) (Japanese)
Ibid., **1**, 171 (1925-1927)
12. On a Simple Differential Manometer made with Quartz or Glass (Japanese)
Ibid., **1**, 269 (1925-1927)
13. The Determination of the Vapor Pressures of Sodium and Potassium Chlorides (with H. Baba) (Japanese)
Ibid., **1**, 458 (1925-1927), *Bull. Chem. Soc., Japan*, **3**, 11 (1928)

BIBLIOGRAPHY OF PROF. S. HORIBA

14. The Determination of the Vapour Pressure of Arsenic Tri-Iodide (with R. Inouye) (Japanese)
Ibid., 2, 6 (1928)
15. On the Decomposition of Carbon Monoxide in the Presence of Reduced Nickel (Preliminary Report) (with T. Ri) (Japanese)
Ibid., 2, 11 (1928), *Bull. chem. Soc., Japan*, 3, 18 (1928)
16. A Note on the Paper "The Weigert Effect as a More General Nature of Certain Colloidal Systems" (with T. Kondo) (Japanese)
Ibid., 2, 20 (1928)
17. The Formation of Colloid by the Action of Light, I: The Formation of Colloidal Silver (with S. Chin) (Japanese)
Ibid., 2, 49 (1928)
18. The Formation of Colloid by the Action of Light, II: The Formation of Colloidal Copper (with R. Inouye) (Japanese)
Ibid., 2, 118 (1928)
19. The Effect of Light on the Osmotic Pressure of Certain Colloids, I (with H. Baba) (Japanese)
Ibid., 3, 1 (1929)
20. The Effect of Light on the Osmotic Pressure of Certain Colloids, II (with H. Baba) (Japanese)
Ibid., 4, 37 (1930)
21. On the Becquerel Effect of Copper Oxide Electrode in Alkali Solution (with N. Hayami) (Japanese)
Ibid., 4, 73 (1930)
22. On the Decomposition of Carbon Monoxide in the Presence of Reduced Nickel (with T. Ri) (Japanese)
Ibid., 4, 73 (1930)
23. Taylor's Theory of Active Centers and the Kinetics of Heterogeneous Gaseous Reactions (with T. Ri)
Rev. Trav., 51, 691 (1931)
24. On the Efficiency of a Simple Glass Calorimeter (with K. Sato) (Japanese)
Rev. phys. chem., Japan, 6, 16 (1932)
25. Thermal Analysis of Reaction Velocity by the Simple Calorimeter, I (with H. Baba) (Japanese)
Ibid., 6, 47 (1932)

26. A Study of the Enzyme Action by the Thermal Analysis of Reaction Velocity :
The Action of Saccharase (with T. Kosaki)
Proc. Imp. Acad., **11**, 232 (1935)
27. Thermal Analysis of Reaction Velocity
Rev. phys. chem., Japan, **11**, 439 (1937)
28. On Explosive Reaction of Gases
 1. Thermal Explosion of Oxyhydrogen Gas at Low Pressure (with R. Goto)
Proc. Imp. Acad., **16**, 218 (1940)

II. SYNTHETIC REPORTS

Kinetical Studies on Contact Catalysis (Japanese)

Japan Society for the Promotion Sci. Research, Rev. II

Neutron and Chemistry (with T. Hagiwara) (Japanese)

Chem. Rev., Japan, (Kagaku-Soho) **1**, 25 (1941)

Developments of Gaseous Explosive Reactions. (with R. Goto) (Japanese)

Chem. Rev., Japan, (Kagaku-Soho) **1**, 67 (1941)

III. BOOK

Theory of Catalytic Actions (Japanese) (Shokendo) (1938)

BIBLIOGRAPHY OF PROF. S. HORIBA

vii

IV. LIST OF THE PAPERS PUBLISHED BY
PROF. HORIBA'S PUPILS

The Review of Physical Chemistry of Japan

Vol. 1 (1925-1927) (Japanese)

Measurement of the Vapour Pressures of Concentrated Aqueous Solution. (I) By

N. Huruya

The Method of Making Reflexive Diffraction Grating by Printing and Silver Plating.

By T. Kondo

On the Deviation of Gaseous Mixtures from Dalton's Law of Partial Pressures due to Chemical Causes (II): Hydrogen Chloride. By J. Shidei

Vol. 2 (1928) (Japanese)

The Determination of the Vapour Pressure of Camphor (Preliminary Report). By S. Yoshimoto.

On the Changes in Strength of Union of Crystallization Water in Hydrates with their Increased Degree of Dispersity. By T. Hagiwara

The New Method of Forming of Colloidal Copper. By S. Ishii

Studies on the Weigert Effect. (II): Chiefly on the Photo-Silver Chloride. By T. Kondo

Vol. 3 (1929) (Japanese)

The Determination of Electrokinetic Potential and Thermodynamical Kinetic Potential. By N. Huruya

The Determination of the Vapour Pressure of Camphor. By M. Kubokawa

Measurement of the Vapour Pressures of Concentrated Aqueous Solution. (II) By T. Yokota

Studies on the Photochemical Reactions of Cuprous Chloride and Cuprous Bromide. By S. Ishii

Studies on the Formation of Colloidal Cuprous Halides and their Existence Period. By S. Ishii

On Certain Colloidal Solutions of Dyes. By H. Hirata

Vol. 4 (1930) (Japanese)

Photochemical Union of Chlorine and Hydrogen. By T. Ichikawa

On the Weigert Effect of Mercury Iodide. By T. Yoshida

Vol. 5 (1931) (Japanese)

- The Decomposition of Phosphorus Penta-Oxide at High Pressure. By W. Jôno
- The Reaction Velocity of Nitric Oxide and oxygen. (I) By R. Goto
- The Decomposition of Carbon Monoxide in the Presence of Reduced Nickel. (II)
By T. Ri
- The Decomposition of Carbon Monoxide in the Presence of Reduced Nickel: A
Note on the Second Paper. By T. Ri
- Studies on the Becquerel Effect of Copper Oxide Electrode in Alkali Solution.
By N. Hayami
- The Relation of the Osmotic Pressure and Transit Quantity of Potassium Chloride
passing through Collodion Mémbrane (Preliminary Report). By A. Tamura
- The Reaction Velocity of Nitric Oxide and Oxygen at Low Temperature. By
R. Goto

Vol. 6 (1932) (Japanese)

- Considerations on Concentrated Solutions. (I): Vapour Pressure and Concentration
of Aqueous Solutions. By T. Yokota
- The Decomposition of Methane on the Surface of Platinum. (I) By M. Kubokawa
- The Adsorption of Hydrogen on Reduced Copper as a Catalyst. By T. Kitagawa
- On the Electrochemical Oxidation of Formaldehyde. By S. Takegami
- Thermochemical Studies on the Swelling and Dissolving of Artificial Silk. By
O. Toyama
- On the Change of Brownian Motion by the Action of Light. By R. Kiyama

Vol. 7 (1933) (Japanese)

- Sorption of Hydrogen in Reduced Nickel. (I) By T. Iizima
- Sorption of Hydrogen in Reduced Nickel. (II): Adsorption of Hydrogen at Low
Temperatures. By T. Iizima
- Sorption of Hydrogen in Reduced Nickel. (III): Heat Treatment of Reduced Nickel
and its Relation with Sorption Velocity and the Quantity of Hydrogen. By
T. Iizima
- On the Photochemical Formation of Phosgene. By M. Tamura
- On the Reaction between Hydrogenchloride and Ammonia. (I) By Y. Okayama
- On the Reaction between Hydrogenchloride and Ammonia. (II) By Y. Okayama
- On the Reaction between Hydrogenchloride and Ammonia. (III) By Y. Okayama
- A new Method of Measurements of Interfacial Contact Angles. By R. Goto

BIBLIOGRAPHY OF PROF. S. HORIBA

ix

Vol. 8 (1934)

- The Decomposition of Methane on the Surface of Platinum. (II) By M. Kubokawa
 The Decomposition of Methane on the Surface of Platinum. (III): On a Velocity Equation of New Type in Heterogeneous Catalytic Reactions. By M. Kubokawa
 On the Photochemical Union of Hydrogen and Chlorine. By M. Tamura
 Emission Spectrum of the Flame of Chlorine Burned in Hydrogen. By T. Kitagawa
 On the Chemisorption of Carbon Dioxide by Reduced Iron. (I) By K. Kawakita

Vol. 9 (1935)

- Studies on Explosion Reaction. The Union of Hydrogen and Oxygen. By W. Jōno
 On the Becquerel Effect of Copper Oxide Electrode in Alkali Solution. (IV): Some Considerations from the View Point of Reaction Kinetics and Thermodynamics. By N. Hayami
 Thermal Analysis of the Reduction of Chromic Acid by Some Organic Acids. (in the dark and photochemical reactions of chromic acid with oxalic acid and tartaric acid) By Y. Nakanishi
 Catalytic Hydrogenation of Ethylene with Nickel at Low Temperatures. By O. Toyama
 The Decomposition of Carbon Monoxide in the Presence of Nickel Supported on Silica Gel. (I) By T. Ri and G. Nagamitsu
 Photochemical Oxidation of Carbon Monoxide Sensitized by Chlorine: On the Photochemical Formation of Phosgene. (II) By M. Tamura

Vol. 10 (1936)

- Emission Spectrum of the Flame of Bromine burning in Hydrogen and Mechanism of the Reaction. By T. Kitagawa
 Measurement of the Vapour Pressures of Concentrated Aqueous Solution. (III) By T. Kume
 Measurement of the Vapour Pressures of Concentrated Aqueous Solutions. (IV): Vapour Pressure and Concentration. By T. Kume
 The Reaction between Ammonia and Carbon Dioxide. (I) By T. Yoshida
 On the Chemisorption of Carbon Dioxide by Reduced Iron. (II): The Influence of the Chemisorption on Van der Waals' Adsorption of Carbon Dioxide at 0°C. By K. Kawakita

BIBLIOGRAPHY OF PROF. S. HORIBA

Thermal Analysis of the Catalytic Actions of Colloids. (I): Catalytic Decomposition of Hydrogen Peroxide by Colloidal Platinum. By E. Suito

Measurement of the Vapour Pressures of Concentrated Aqueous Solutions. (V): Saturation Coefficient of the Hydrates of a Salt. By T. Kume

Emission Spectrum of the Oxy-Hydrogen Flame and its Reaction Mechanism. (I): Formation of the Activated Water Molecules in High Vibrational States. By T. Kitagawa

Vol. 11 (1937)

On the Photochemical Union of Hydrogen and Chlorine. By M. Tamura

The Determinations of the Vapour Pressure of Concentrated Aqueous Solutions. By T. Kume

Emission Spectrum of the Flame Burning in Hydrogen and its Reaction Mechanism. By T. Kitagawa

On the Chemisorption of Carbon Dioxide by Reduced Iron. (I) By K. Kawakita

The Relationship between the Magnetic Moment of a Metal Atom and its Catalytic Activity. By T. Kitagawa

The Photographic Action of Sputtered Platinum Films. By S. Ono

The Decomposition of Methane on the Surface of Platinum. (I), (II) By M. Kubokawa

The Kinetics of the Catalytic Hydrogenation of Ethylene with Nickel. (I) By O. Toyama

On the Becquerel Effect of Copper oxide Electrode in Alkali Solution. By N. Hayami

A Study of the Energy Distribution of the Active Centres of Catalysts by the Adsorption of Poisonous Substances. By M. Kubokawa

A Note on "The Decomposition of Methane on the Surface of Platinum." By M. Kubokawa

Vol. 12 (1938)

On the Adsorption of Hydrogen on Reduced Nickel. By S. Iizima

On the Positive Ion Emission from Heated Nickel Wire in Oxygen and Hydrogen. By R. Goto

Thermal Analysis of Enzyme Reactions. (I): Invertase Action. By T. Kosaki

On the Saturation of Non-Volatile Substances in Aqueous Solutions. By T. Kume

On the Adsorption of Deuterium on Reduced Nickel. By S. Iizima

BIBLIOGRAPHY OF PROF. S. HORIBA

xi

- The Decomposition of Methane on Reduced Nickel. By M. Kubokawa
 On the Chemisorption of Carbon Dioxide by Reduced Iron. (II) By K. Kawakita
 The Kinetics of the Hydrogenation of Ethylene with Nickel. (II) By O. Toyama
 Emission Spectrum of the Flame of Burning in Hydrogen and Mechanism of the Reaction. By T. Kitagawa
 On the Adsorption of Hydrogen on Poisoned Nickel: Studies at Low Temperatures. By S. Iizima
 The Activated Adsorption of Methane on Reduced Nickel. By M. Kubokawa
 Thermal Analysis of the Oxidation of Sulphites. (I) By H. Matuyama

Vol. 13 (1939)

- On the Adsorption of Hydrogen on Poisoned Nickel. (II) By S. Iizima
 On the Photochemical Decomposition of Ammonia. By S. Shida
 On the Adsorption of Nitrogen on Reduced Nickel. By S. Iizima
 Thermal Analysis of the Catalytic Action of Colloids. (I): Catalytic Decomposition of Hydrogen Peroxide by Colloidal Platinum. By E. Suito
 On the Chemisorption of Carbon Dioxide by Reduced Iron. (III): Thermodynamic Consideration of the Chemisorption. By K. Kawakita
 Emission Spectrum of the Oxy-Hydrogen Flame and its Reaction Mechanism. (I): Formation of the Activated Water Molecule in Higher Vibrational States. By T. Kitagawa
 The Decomposition of Ammonia by Iron Catalyst mixed with Al_2O_3 and K_2O . By R. Kiyama
 The Decomposition of Ammonia by Iron Catalyst. By K. Seya
 Liberation of Neutrons in the Nuclear Explosion of Uranium irradiated by Thermal Neutrons. By T. Hagiwara
 High Temperature Oxidation of Carbon Monoxide catalyzed by Quartz Surface. -By Y. Kondo and O. Toyama

Vol. 14 (1940)

- On the Chemisorption of Carbon Dioxide by Reduced Iron. (IV): Kinetics of the Chemisorption. By K. Kawakita
 On the Capacity of a Lead Storage Cell. By M. Kubokawa
 On the Disintegration of the Starch Paste caused by the Irradiation of Ultrasonic Waves. By S. Ono
 The Adsorption of Ethylene on Reduced Nickel. By S. Iizima

- The Kinetics of the Reduction of Ferric Oxide. By K. Kawakita
- The Kinetics of the Hydrogenation of Propylene on a Nickel Catalyst. By O. Toyama
- Note on the Disintegration of the Starch Paste caused by the Irradiation of Ultrasonic Waves. By S. Ono
- Erratum: The Decomposition of Ammonia by Iron Catalyst mixed with Al_2O_3 and K_2O . By R. Kiyama
- Formation of the Silver Hydrosol by Means of Light. By S. Yagi
- A Note on the Adsorption of Hydrogen on Reduced Nickel. By S. Iizima
- Studies on Organogels. (I): The Gel from Cadmium Oleate Oleic Acid Solution. By I. Yamakita

Vol. 15 (1941)

- Thermal Analysis of the Catalytic Action of Colloids. (II): The Effect of Temperature and Heat Treatment of Platinum Sol upon the Catalytic Decomposition of Hydrogen Peroxides by Colloidal Platinum. By E. Suito
- Studies on Explosion Reaction: The Reaction between Carbon Monoxide and Oxygen. (I) By W. Jōno
- On Explosive Reactions of Gases. (I): Explosion Limits of Oxyhydrogen Gas. By S. Kimura, N. Aomi and R. Goto
- Photochemical Chlorination of Methane. By M. Tamura
- On Explosive Reactions of Gases. (II): Spark Ignition of Oxyhydrogen Gas at Low Pressures. By A. Hayakawa and R. Goto
- The Hydrogenation of Iso-butylene in the Presence of Nickel Catalyst. By R. Kiyama
- A New High Temperature Calorimeter of Glass. By R. Kondo and E. Suito
- Thermal Analysis of the Catalytic Action of Colloids. (III): The Effect of Acid and Base upon the Catalytic Decomposition of Hydrogen Peroxide by Colloidal Platinum. By E. Suito

Vol. 16 (1942)

- Thermal Analysis of the Catalytic Action of Colloids. (IV): Hydrogen-, Oxygen- and Nitrogen-Platinum Sol. By E. Suito
- Synthesis of Urea from NH_3 and CO_2 under High Pressure. (I): Preliminary Report on the Condition of the Change of Ammonium Carbamate to Urea. By T. Kume, G. Higashiwara and K. Umemura

BIBLIOGRAPHY OF PROF. S. HORIBA

xiii

- The Explosive Reaction of Gases: The Pressure Effect of the Spark Ignition of Oxy-Hydrogen Gas. By R. Goto and K. Urakubo
- A Study of the Recombination Reactions of Free Atoms by the Thermal Analysis of Budde-Effect. (I): The Recombination of Hydrogen Atoms. By S. Shida
- A Method of Measuring the Velocity of the Flame Propagation. By R. Goto and M. Suzuki
- Decomposition of Methanol with Zinc-Chromium Oxide Catalyst. By M. Tamura and S. Shida
- The Desorption of the Adsorbed Gases by the Impact of Slow Electrons. (I): The Desorption of the Adsorbed Hydrogen on a Platinum Plate by the Impact of Slow Electrons. (I) By Y. Ishikawa
- On Explosive Reaction of Gases. (I): Explosive Reaction of Oxyhydrogen Gas induced by a Heated Platinum Ribbon (Filament Explosion). By R. Goto
- The Desorption of the Adsorbed Gases by the Impact of Slow Electrons. (II): The Desorption of the Hydrogen Molecule on Platinum by Slow Electron Impact. (II): By Y. Ishikawa
- On Explosive Reactions of Gases. (II): An Experiment which shows the Heterogeneity of the Thermal Explosion of Oxy-Hydrogen Gas. By R. Goto
- On Explosive Reactions of Gases. (III): Theoretical Consideration on Explosive Reactions of Gases. By R. Goto

Vol. 17 (1943)

- The Effect of Organic Substituents on Reactivity. (I): Theoretical Considerations on Substituent Effect. By T. Ri
- The Effect of Organic Substituents on Reactivity. (II): The Orientation Effect in Monosubstituted Benzenes. By T. Ri
- The Effect of Organic Substituents on Reactivity. (III): The Theory of Acid Strengths of Substituted Acids. By T. Ri
- Physico-Chemical Studies on Copper Catalyst. (I): The Kinetics of the Reduction on Cupric Oxide by Hydrogen. (I) By S. Hasegawa
- Studies on Organosols. (I): Gold Organosols obtained by a Chemical Reaction. By I. Yamakita
- Empirical Equations for calculating the Change in the Boiling Points for Small Changes in the Pressure of Some of the Organic Substances. By R. Negisi
- On the Poisoning of Catalysts. (I): The Poisoning Effect of CO on the Oxyhydrogen Reaction on a Pd Wire. By S. Ono

- On the Poisoning of Catalysts. (II): The Poisoning Effect of the Lanolin-Beeswax Vapour on the Oxyhydrogen Reaction on a Pd Wire. By S. Ono
- Physico-Chemical Studies on Copper Catalyst. (II): The Kinetics of the Reduction of Cupric Oxide by Hydrogen. (II): The Formation of the Reaction Nuclei. By S. Hasegawa
- On the Measurement of the Radioactivity of Soils by a Geiger-Müller Counter. By T. Hagiwara, S. Morita and S. Kobayashi
- The Desorption of the Adsorbed Gases by the Impact of Slow Electrons. (III): The Desorption of the H_2O Molecules adsorbed on a Platinum Plate by Slow Electron Impact. By Y. Ishikawa.
- The Desorption of the Adsorbed Gases by the Impact of Slow Electrons. (IV) The Determination of the Elementary Space and the Thickness of an Adsorbed Molecular Layer of Water. By Y. Ishikawa

Vol. 18 (1944)

- Quantum Mechanical Calculation of the Bond-Moments. By T. Ri and N. Muroyama
- Studies on Organic Peroxide. (I): The Decomposition of Methylhydroperoxide catalysed by Platinum Sol. By S. Hasegawa
- The Qualitative Consideration on the Mechanism of the Formations of Higher Alcohols by Reduction of Carbon Monoxide or by Condensation of Lower Alcohols. (I): The Mechanism for Primary Alcohols. By R. Negisi
- The Qualitative Consideration on the Mechanism of the Formations of Higher Alcohols by Reduction of Carbon Monoxide or by Condensation of Lower Alcohols. (II): The Mechanism for Secondary Alcohols and the Comparison of Different Mechanisms. By R. Negisi
- Oxidation of Acetaldehyde. (I): A Kinetic Study of Slow Oxidations. By S. Yagi
- Studies of Colloidal Catalysis by Thermal Analysis of Reaction Velocity. (V): On the Surface Condition of the Pt Catalyst seen from CO-Poisoning in H_2O_2 Decomposition Reaction. By E. Suito
- Studies of Colloidal Catalysis by Thermal Analysis of Reaction Velocity. (VI): Kinetics of a Transitory Poisoning Reaction. By E. Suito
- Physico-Chemical Studies on Copper Catalyst. (III): The Reaction Between Hydrogen and Oxygen on the Surface of Copper Oxide. By S. Hasegawa

BIBLIOGRAPHY OF PROF. S. HORIBA

xv

Vol. 19 (1945)

- Ultra Pressure. (I): Making of a Gas Compressor and a Reaction Vessel for an Ultra Pressure. By R. Kiyama
- Ultra Pressure. (II): Pressure-Proof Electrode. By R. Kiyama
- Ultra Pressure. (III): Pressure-Proof Character of Optical Window. By R. Kiyama
- Ultra Pressure. (IV): Packing. By R. Kiyama
- Ultra Pressure. (V): The Relation between the Scale in the Bourdon Type Pressure Gauge and the Position of the Piston of the Intensifier. By R. Kiyama
- Ultra Pressure. (VI): The Measurement of 5,000 kg/cm² Gas Pressure. By R. Kiyama
- Ultra Pressure. (VII): The Compressibility of the Air under Ultra Pressure. By R. Kiyama
- The State Diagram of *i*-Butene. By R. Kiyama and H. Kinoshita
- Spontaneous Ignition Temperature Time Lag Curves of Aviation Fuels. (I): The Measurement in the Air. By I. Yamakita
- Spontaneous Ignition Temperature Time Lag Curves of Aviation Fuels. (II): The Measurement in the Oxygen Stream. By I. Yamakita
- Spontaneous Ignition Temperature Time Lag Curves of Aviation Fuels. (III): The Estimation of the Octane Value of the Fuels from the Curves. By I. Yamakita
- The Oxidation Reaction of Acetaldehyde. (II): The Induction Period of an Explosive Reaction with Cool Flame. By S. Yagi
- The Oxidation Reaction of Acetaldehyde. (III): The Effect of Wall on the Explosive Reaction with Cool Flame. By S. Yagi
- The Oxidation Reaction of Acetaldehyde. (IV): The Effect of Wall on the Explosive Reaction with Cool Flame. By S. Yagi
- The Oxidation Reaction of Acetaldehyde. (Supplement) By S. Yagi
- Physico-Chemical Studies on Copper Catalyst. (IV): The Adsorption of Hydrogen by Cupric Oxide. By S. Hasegawa
- Physico-Chemical Studies on Copper Catalyst. (V): The Decomposition of Methanol by Reduced Copper. By S. Hasegawa
- The Effect of Substituents on the Redox-Potentials of Organic Substances. By T. Ri and H. Takayama
