

THE REVIEW OF PHYSICAL CHEMISTRY OF JAPAN

Founded in 1926

CONTENTS

- Kiyoshi Shimizu, Hideto Takizawa and Jiro Osugi:** Effect of Pressure on the Dissociation of Electrolytic Solution. I. Electrical Conductivity of Hexammine Cobalt (III) Chloride at High Pressures..... 1
- Tatsuya Ikegami:** Studies on Explosion Reaction of Monovinyl Acetylene Gas. II. Explosion Limits of Monovinyl Acetylene-Oxygen, Nitrogen and Nitric Oxide Mixtures..... 6
- Tatsuya Ikegami:** Studies on Explosion Reaction of Monovinyl Acetylene Gas. III. Thermal Reaction of Monovinyl Acetylene Gas.....15
- Krishna Chandra Nand and Satyeshwar Ghosh:** Stability of Lyophobic Colloids. XI. Investigations on the Stability of the Hydrrous Ferric Oxide Sols as related to the Coagulating Powers of the Poly-valent Precipitating Ions.....31
- Shoichiro Yamada:** The Molecular Structures of Compounds of Rare-gas Elements.....39

THE PHYSICO-CHEMICAL SOCIETY OF JAPAN

THE REVIEW OF PHYSICAL CHEMISTRY OF JAPAN

(Butsuri Kagaku no Shinpo)

President: Shinkichi Horiba, Professor Emeritus, M. J. A.

Members of Council:

Ko Hirasawa (Chief)

J. Osugi Y. Kachi

K. Koderu H. Takagi

R. Goto H. Hatano

T. Yamamoto W. Jono

T. Fujinaga R. Goto

S. Tanaka E. Suito

Board of Editors:

J. Osugi (Chief) Kyoto University

W. Jono (Associate) University of Kobe

R. Goto () Kyoto University

E. Suito () Kyoto University

S. Shida Tokyo Institute of Technology

T. Kitagawa Yokohama University

M. Tamura Kyoto University

H. Matsuyama Doshisha University

K. Suzuki Ritsumeikan University

K. Hirota University of Osaka

S. Seki University of Osaka

T. Ishino University of Osaka

T. Imoto Municipal University of Osaka

R. Fujishiro Municipal University of Osaka

O. Toyama Prefectural University of Osaka

S. Ono Prefectural University of Osaka

K. Juna Kohan University

S. Tsuchihashi University of Kobe

S. Hasegawa Okayama University

T. Kume Tokushima University

H. Togawa Doshisha University

Secretary:

H. Teranishi K. Shimizu

M. Sato H. Matsumiya

October 28, 1963

Communications to the Editor should be addressed to Board of Editors, The Physico-Chemical Society of Japan, College of Science, Kyoto University, Kyoto, Japan.

Business Correspondences should be addressed to: Secretary, The Physico-Chemical Society of Japan, College of Science, Kyoto University, Kyoto, Japan.

Purchase Order should be addressed to: Maruzen Co., Ltd., Nihonbashi, Chuo-ku, Tokyo, Japan.

PRODUCTS FOR TODAY— PRODUCTS FOR TOMORROW

KANEGAFUCHI now serves more than 100 industries varying from food to feed, tobacco to textiles, pharmaceuticals to plastics.

KANEGAFUCHI's variety of products include industrial chemicals, polymers, oil & fat products and fermentation products. Such diversified operation ranks KANEGAFUCHI a unique position in the industry.

KANEGAFUCHI's research activities which enabled successful achievement of today's products are continually producing a flow of new products to meet the challenge of tomorrow.

PRINCIPAL PRODUCTS:

- KANEVINYL (PVC & copolymer, PVC compound) KANEKALON (modacrylic fiber) Electric wires & cables
- Caustic soda, Hydrochloric acid, KANECHLOR (transformer oil, heat transfer medium), Butanol, Acetone,
- Bakery yeast, RNP special type yeast, BDF (animal feed additives)
- Margarine, Shortening oil, Soap, Glycerine

KANEGAFUCHI CHEMICAL INDUSTRY COMPANY, LTD.

14 2-Chome, Awazimachi, Higashi-ku, Osaka
Cable address: CHEMIKANE

TEIJIN

In case you hadn't heard.....

.....the very finest materials are available for modern textiles produced by the skilled researchers employed in the laboratories of TEIJIN, where textiles fulfilling the requirements of the modern age and leading the way to finer service through their findings in new applications for man-made fibers, have evolved right through the history of synthetic fibers in Japan. With the name TEIJIN, everyone knows the wonder fibers Tetoron (polyester fiber), Teviron (polyvinyl chloride fiber), Acetate, and Polycot (Polynosic fiber).

Fit for every case.

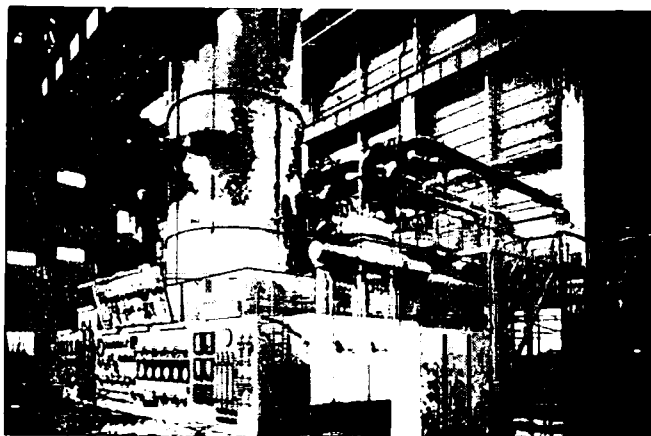

Tetoron[®] Acetate

Teviron[®] Polycot

TEIJIN LIMITED
Formerly TEIKOKU RAYON CO., LTD.

Osaka - Tokyo, Japan
Cable Address: "TEIJIN OSAKA"
"TOKYOTEIJIN TOKYO"

Oxygen Generating Plant

**Fertilizer Plant
Cement Plant
Oxygen Plant**

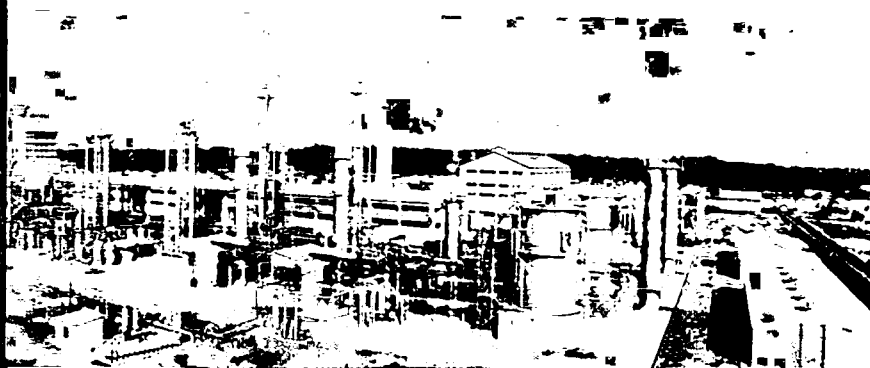

Other Major Products:

Rolled Steel Products, Steel Castings & Forgings, General Industrial Machineries, Light Metal Alloy Castings & Forgings, Titanium Products, Arc Welding Electrodes, Small Tools, Non Ferrous Metals & Their Products, Sugar Cane Milling Plant.

Oxygen Compressors

Chemical Plants

Fertilizer Plant in Pakistan

TOWARD THE GOOD LIFE THROUGH CHEMISTRY !!

MAIN PRODUCTS

CHEMICAL FERTILIZER:
UREA, P.C.P. UREA,
AMMONIUM SULPHATE,
UREA COMPOUND FERTILIZER
YOGEN (Special product for
foliage feeding)

INDUSTRIAL CHEMICALS:
METHANOL, FORMALDEHYDE,
ACRYLONITRILE, SODIUM
TRIPOLYPHOSPHATE,
SODIUM CYANIDE

SYNTHETIC RESINS
& PLASTICS:

UREA, MELAMINE,
POLYESTER & STYRENE-
ACRYLONITRILE COPOLYMER
(MOULDING MATERIAL,
ADHESIVE, COATING MATERIAL,
PAPER AND TEXTILE TREATMENT
& OTHERS)

TOYO SODA INDUSTRIES, INC.

Mitsui Bussan Kaisha, Nihonbashi, Tokyo
Cable Address: "TOSUIND TOKYO"
